Excursion steamboats on the Ohio river are now equipped with steel cages to lock up drunken and improper characters until a town is reached. As conductors in this state are now empowered to make arrests, it wouldn't be a bad idea, remarked The Augusta Chronicle, to equip each baggage car with a cage for the same purpose.

OHIO'S Railway Commission has condemned crowded passenger cars and has issued orders that overloading must cease at once. The time is coming when every passenger buying a ticket must have a seat or a lawsuit will follow to enforce it.

PRESIDENT ROOSEVELT has called the bluff of the yellow Japanese jingoos by ordering 27 United States warships sent to the Pacific. Even if war results with Japan, the line has got to be drawn on their encroachments, else serious results will follow.

AT Cincinnati, Park Superintendent RODERS has instructed the park policemen to use any amount of force necessary to stop rowdiness by toughs in the parks at night.

"Take your club and beat into insensibility any rowdy you catch dead to rights insulting women in the parks," is the text of the instruction.

It is alleged that HARRY ORCHARD first lost his mine and then he lost his mind. The loss of either is bad enough, but to lose both is enough to make a person real indignant, but is not sufficient reason for him to commit wholesale homicide. History hardly shows a mild-faced demon and degenerate the equal of HARRY ORCHARD. And, remember, he was backed by HAYWOOD, MOYER and others.

THE noise made on the Fourth of July is heard 'round the world.

THE Cincinnati Enquirer says, "a war with Japan might not be dangerous, but it would be pestiferous." The little devils are already pestiferous without going to war. America has slobbered over them just a shade too much. It's time for Uncle Sam to ring off.

IN a Fourth of July oration at Jamestown President WOODROW WILSON of Princeton College advocated "the arrest and imprisonment of corporation heads instead of the fining or dissolution of corporations themselves." That's the solution of the whole question of combines and monopoly.

AND suppose it had been colored state soldiery who, in a drunken frenzy, attempted to wreck the Jamestown Exposition? The shooting up of Brownsville and the riot at Jamestown are about on the same level of culpability, and the guilty ones must be punished in both instances.

THE LIFE OF SERVICE.

Merciful Sentence That Was Passed Upon Man by the Creator.

It was a merciful sentence which the Creator passed upon man for his disobedience — "In the sweat of thy face shalt thou eat bread;" for to the punishment itself he stands indebted for health, strength, and all the enjoyment of life. And, though, the ground was pronounced cursed for his disobedience, yet is that curse so ordered to be the punishment, chiefly and almost solely of those who, by intemperance or sloth, inflict it upon themselves. The stoutest timber stands on Norwegian rocks, where tempests rage and long, hard winters reign. The muscles are seen most fully developed in the brawny arm that piles the blacksmith's hammer. Even so the most vigorous and healthy piety is that which is the busiest, which has its hands full of good works, which has neither time nor room for evil, but, aiming at great things both for God and man, promptly and summarily dismisses temptation with Nehemiah's answer, "I have a great work to do, therefore, I cannot come down."—Montreal Herald.

SIGN WITH THEIR THUMBS.

Wyoming Bank's Method of Identification of Customers.

When Mark Twain wrote "Pudd'n-head Wilson" it is doubtful if he realized into what general vogue this novel form of identification would come, and that its commercial value and utility would be incalculable. For a number of years thumb prints have been adopted as a means of identifying criminals, but it remained for the First National Bank of Cheyenne, Wyo., to adopt this method for the identification of customers. The bank has a large number of Japs, Greeks and other foreigners as patrons, these being employed in the railroad service. But few of these can write the English language, and some of them not even their own. As a result, each depositor is required to make an impression of his thumb, which is filed away for record, taking the place of the customary signature.

The Glass Eye Crop.

The glass eye crop comes from Thuringia. As Newfoundlanders are fishermen, or as Cubans are tobacco growers, so the typical Thuringian is a maker of glass eyes. Almost every Thuringian. As Newfoundlanders are tory. Four men sit at a table, each with a gas jet before him, and the eyes are blown from plates and molded into shape by hand. The colors are traced in with small needles, and, as no set rule is observed in the coloring, no two eyes are exactly alike. Sometimes a one-eyed man or woman—come, maybe, from a great distance—sits before one of these Thuringian tables, posing for a glass orb, and the artisan, with his gas-jet, his glass and his needle, looks up at his sitter and then down at his work, and altogether the scene suggests a portrait painter at work in his studio.

Comparing Two Generations.

Dr. William H. P. Faunce, president of Brown University, in the course of an address at Cooper union, one of a series of public lectures, said: "The young people of to-day, as compared with those of 50 years ago, are chiefly deficient in power of sustained attention and original thinking. They cannot, or at least they usually do not, think as clearly, as patiently and as cogently as did their fathers. They do not as quickly distinguish the irrelevant from the pertinent, the kernel from the husk, as the men of the last generation." Dr. Faunce said, however, that the children of this generation have an amazing fund of general information.

Enough to Depress Anyone.

Dr. Austin Flint said at the Century club in New York apropos of a will contest that had been tried last year: "The plaintiff lost and no wonder. His case was as difficult as one as that of a young man who appeared unduly depressed after the death of his rich aunt. 'Why are you so sad?' an acquaintance said to the young man. 'You never appeared to care much for your aunt.' 'I didn't,' said the youth dolefully, 'but I was the means of keeping her in an insane asylum the last five years of her life and now that she has left me all her money I've got to go to court and prove that she was sound mind.'"

What Is Foolscap?

Everybody the world over recognizes that paper foolscap size means a standard measurement of 13 inches by 16, yet now few can give the reason why. In England the paper mark was originally a crown, and when the commonwealth was set up Cromwell was approached as to what mark should be used in the future. He, with characteristic contempt for crowns, replied: "A fool's cap;" and so it became and remained, for at the restoration the matter was overlooked until too late to act upon the ultimate discovery.

Valuable Conch Shell.

There are evidently a number of mysterious properties about the conch shell in its relation to Indian religious rites and ceremonies that require investigation. For instance, a conch with its spirals twisting to the right instead of to the left is supposed to be worth its weight in gold. Some years ago a conch of that description was offered for sale in Calcutta with a reserve price of a lakh of rupees placed on it. It was eventually bought in for \$20,000.

KICKERS' CORNER

If any one at any time for any reason has any cause to "kick" in any way at anything of any kind, here's the place to say his say. The door is open—walk right in and help yourself, free gratis and for nothing—but don't make your "kicks" too long—it's the short, quick fellows that count—and cut.

The name of the kicker must accompany the kick, or it'll be kicked into the waste-basket.

Editor Public Ledger, Dear Sir: This article, I suppose, will be published in the "Kickers Corner," but I am no kicker.

There has been charges in former additions of THE LEDGER and also before the Fiscal Court of Mason county at its last session, as to the competency of the officials of this county, including some of the members of the Fiscal Court, if not all of them, and the Superintendent of the Public roads of the county and especially Springdale turnpike. If I am not mistaken, or do not remember right, the complaints on the Springdale turnpike road, were viz: That the road was very rough and full of mudholes, and that there had not been much repairs put on it since it had been kept up by the present officer in charge. With such criticism against the Fiscal Court and the Superintendent, William Luttrell, without the least grounds for such criticism, especially on the Springdale road, I feel it my duty as one of the members of the Advisory Board to deny all of the charges preferred against the Fiscal Court in electing incompetent Superintendent; and, also, that the Superintendent William Luttrell, has not done his duty on the Springdale turnpike road.

While I have all due respect for the writer of these articles, and like to see the taxpayers interested as to how their money is spent, but when they prefer charges against an officer of the county they ought to have some reason for it.

On June 25th, 1907, the committee on the Turnpikes of Mason county, made a tour over all the pikes under the supervision of William Luttrell and found them all in first-class condition; better than we expected, and especially, the Springdale road, on account of so much kicking of some private citizen. We found it in better condition than any other side road under his care. There were no signs of any places where there were any mudholes, or showing any of bad metal, or had been in the past; and we also asked several of the farmers who live on this road and use it most every day, and they say they have no kick to make and spoke very highly of the present Superintendent.

tendent. We find it smooth, well ditched, plenty of metal and have no fault to find with said road.

The aforesaid complaint was made by the "Kicker" and I am sure he will not deny it, for the whole Fiscal Court heard him make such a statement and in former editions of these columns he made such statements. Now he comes out in another card written June 5th and denies some of his first charges himself by saying that the latest fraud was perpetrated "Monday, June 3d, when Sycamore Hill was put badly out of repair." That this "magnificent piece of smooth road was put badly out of repair."

I wonder which one of his statements he expects the public to believe? The former or the latter?

He says that at the present time great ugly piles of unbroken stone are being hauled and piled along on the roadway and calls them nuisances.

I wonder how he expects the road can have metal put upon it without having it hauled on the road to be broken?

I wish we could have such nuisances all over the county and I don't believe that there is any private citizen in the county who would make a kick but this Kicker.

I am sure this Kicker is not familiar with the turnpike proposition.

If I understand the law, it says that the money collected for turnpike purposes shall be expended by said Court in the Magisterial District of said county—each District receiving its pro-rata as the assessed value of property of said District bears to the entire county.

Now, Mr. Kicker, if you will figure some and find out how much your Magisterial District pays in taxes for turnpike purposes, I believe it will allow you from 5 to 15 rods to the mile to be expended on your turnpikes in that District.

Counting 325 miles of turnpikes in Mason county turnpike tax amounting to about \$23,000 taking out \$2,400 interest on bonds and salary of the Superintendents, leaving about \$19,000 to repair bridges, build culverts, ditches, metal the roads, so as to expend it equally all over the county, would allow you something like 2,000 rods of metal to the mile of road at \$2.50 per rod. So, Mr. Kicker, the large tax-paying Districts help keep up your Springdale turnpike, so beggars ought not to be "kickers," because if you continue to kick you are kicking yourself by contradicting some of your own statements.

Stomach Distress is A Danger Signal

Gas on the stomach, belchings, pains and weakening perspirations resulting shortly after eating are the signs nature provides as stomach warnings.

The most general and only cure for such ailments is to promptly cleanse the bowels. If the proper physic is taken, relief is almost immediate, but because the proper physic is not taken, chronic cases of constipation, indigestion, dyspepsia and many other ailments that are directly due to these disorders are set up.

The physics usually taken—salts, pills, tablets, etc., do cleanse the bowels but not without causing a great loss of strength. The bowels cannot then perform their functions without another physic and continually a stronger drug is required, until a dangerous "pill habit" has been formed.

Dr. Caldwell's Syrup Pepsin

has a strengthening influence upon the bowels and intestines. It is pleasant to take, does not weaken or gripe, and never establishes the dangerous habit which most other remedies do.

Dr. Caldwell's Syrup Pepsin is sold by all druggists at 50 cents and \$1.00 per bottle.

Your money back if it don't benefit you.

3,000 VICTIMS

Sacrificed on the Altars of Patriotism on the Glorious Fourth

Forty-three men, women and children are dead and 2,153 are maimed, lacerated or burned as a result of an excess of patriotism in the United States on the Fourth of July. The number of the dead does not include five drowned during the day.

The roster of the dead is four more than last year's mortality. A year ago thirty-three persons were dead on the morning after the Fourth not including five drowned.

Unfortunately, the death roll will increase day by day, and even the late days of August will witness additions to it. Tetanus, that grim aftermath of gunpowder wounds, claims its victims by scores and even by hundreds for weeks after the Fourth.

New York leads all the cities of the United States in the number of killed and injured. Ten persons are dead in that city, while six more are so seriously hurt that it is expected they will die within a few hours. At the New York hospitals 423 injured persons were treated. No record was made of the number of dispensary cases cared for.

The police doubtless averted a greater casualty list by arresting 428 men and boys for carrying weapons.

There were 116 fires in Greater New York during the day. These figures break all Fourth of July records for the big metropolis.

Chicago, although the second city of the country, added only two dead to the Nation's total.

Springfield, Ill., supplied three victims; Chatham, Ill., two and Aberdeen, S. D., two. No other town or city in the country gave up more than one of its own to death.

The total number of injured, 2,153, is under last year's figures, which were 2,789.

The figures show that this year, as last, the most of the casualties were due to carelessness in handling fire-crackers and other forms of "harmless explosives."

Victims of gunpowder this year stand second in number, but show a marked decrease from last year's figures.

The crusade against the deadly toy pistol seems to be bearing fruit, as this year only 205 victims are reported as against 304 last year.

Ever have itching piles?

Not sick enough to go to bed; not well enough to be content.

The constant itching sensation.

Spoils your temper, nearly drives you crazy.

You can have relief and cure if you will follow the advice of a local citizen.

Mrs. S. F. Tolle, of 117 Short street, Maysville, Ky., says:

"Before I used Doan's Ointment, in March, 1900, I had suffered for a long while with itching hemorrhoids. I had tried persistently to rid myself of the trouble but without success, and anybody who has known the tortures of this complaint will understand what I suffered. Doan's Ointment cured me, as stated in a testimonial given at that time. During the five years past I have had no return of the trouble. It required only one box to bring this gratifying result. I have used Doan's Ointment for other purposes and find that it is a specific for skin troubles and all itching diseases."

For sale by all dealers. Price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.
